

Remarks

The specification has been amended to recite the claim for priority; to add headings and subheadings recommended by the United States Patent and Trademark Office; and to correct minor translation errors, including correct numerical usage. The claims have been rewritten to reflect current U.S. practice and to eliminate multiple dependent claims.

It is noted that use claims 1 - 10 which herein have been rewritten as process claims 11 - 20, consistent with U.S. practice, have been found to meet all PCT standards for novelty, inventive step (non-obviousness), and industrial utility. Early favorable consideration is therefore respectfully solicited.

Respectfully submitted,

René Gräwe et al.
